DB Schenker offers logistics and transport solutions all over the world.

DB Schenker is independent of means of transport and always use the most efficient and profitable solution for our customers. Through our network we can offer secure access to ships all over the world. Long-term collaborations with the large shipping companies ensure that we can offer several solutions all according to the customer's need.

FCL – Full container load

DB Schenker offers good contracts to and from larger industrial areas and ports all over the world. We have prioritized access with regards to transport capacity and space on the ships. We have a large flexibility and competitive prices.

LCL – Less than Container Load

DB Schenker offers fixed departures via distribution facilities all over the world. This includes fixed weekly departures to and from the most important industrial areas and ports.

Special- and bulk freight

DB Schenker can handle goods with special volume and weight with the assistance of our special logistics dept. The services are used when shipments have extra height, width or weight (out of gauge). Our logisticians plan and arrange the transport of these shipments. DB Schenker can combine freight of this type of shipment by land, ocean and air. Examples of this kind of projects are moving of factories, large cumbersome machines, petroleum plants, power plants and art collections.
